

Zestica™ moisture

Vaginal moisturising
lubricant. Provides rapid
soothing relief from dryness.

Zestica Moisture is a hormone-free vaginal moisturizer and lubricant, designed to work in harmony with the body.

Vaginal dryness is experienced by most women from time to time, particularly during hormonal changes, when tired, stressed or sometimes when on medication. Vaginal dryness can also cause discomfort and irritation.

Zestica Moisture contains Hyaluronic Acid, which is a key component of vaginal fluid and works with the body to retain moisture. It is a very light formulation designed to make you feel "natural" and comfortable again. It's clear, odourless, non sticky, paraben-free and easy to use.

When to Use: To help combat dryness use **Zestica Moisture** daily for five days, then reduce usage to two or three times a week as required.

Directions for use: For ease, use **Zestica Moisture** applicator morning or night (use panty liner if necessary until appropriate application amount is determined). Twist off the end tab, sit or lie in a comfortable position and gently insert the applicator into the vagina as far as it will comfortably go. Squeeze the applicator to release **Zestica Moisture**. Carefully remove the applicator and discard.

Ingredients: Phosphate buffered saline, sodium hyaluronate, phenoxyethanol.

For condom use: Zestica Moisture can be applied to the outside of the condom prior to intercourse. Compatible with latex and polyurethane condoms.

⊗ Single use only.

🌡 Store between 5-30°C

Cautions: Do not use if the end tab is broken off. Vaginal applicators are designed for single use only, reuse may result in infection. Discontinue use if irritation occurs. Keep out of reach of children.
